Research in Germany: Funding made easy!

Are you interested in advancing your academic career in one of the leading nations in science and research? Would you like to collaborate with German researchers and renowned scientists from different countries on first-class research projects?

Germany is home to a unique network of university and non-university research institutes with close links to industry and commerce. Here you will find a broad spectrum of research opportunities at hundreds of German science and research institutions. Following its Strategy for Internationalisation of Science and Research, the Federal Government wishes to support collaborative projects with outstanding researchers worldwide. Many research and funding organisations offer excellent funding opportunities and ideal conditions for foreign scientists in all fields. Over 26,000 foreign researchers received financial support from German funding organisations and agencies in 2009 alone.

This brochure, financed by the Federal Ministry of Education and Research (BMBF), offers a wide selection of funding programmes by various funding organisations for international academics and researchers – for students, graduates, doctoral students, postdocs and senior scientists. For more information about these programmes, we recommend contacting the respective funding organisation.

If you would like to learn more about Germany's research opportunities and funding system, we invite you to visit the "Research in Germany" portal at www.research-in-germany.de.

Under "Jobs and careers" you will find a listing of current vacancies at universities, colleges and research institutes for doctoral students, postdocs, professors and academic staff. Our web catalogue offers more than 300 annotated links to interesting R&D-related websites and key research areas.

We wish you success in conducting your research in Germany!

 About "Research in Germany"	59

German Research Funding Organisations

German Research Foundation (DFG)

The DFG is the central, self-governing research funding organisation in Germany. Its mission is to fund and promote all fields of science and the humanities. It does so by relying on its statutory bodies and its head office, which shape the work and structure of the DFG. As a member of several international scientific and science policy associations, the DFG actively promotes international dialogue, cooperation among researchers and the formation of the European Research Area.

Contact:

Deutsche Forschungsgemeinschaft (DFG)
Kennedyallee 40
53175 Bonn, Germany
www.dfg.de/en

German Academic Exchange Service (DAAD)

The DAAD supports the international exchange of students, academics and scientists. It is a registered association whose members are German institutions of higher education and student bodies. Its primary objectives include encouraging outstanding young academics from abroad to study or conduct research in Germany and enabling young German researchers to gain professional qualification at the best institutions around the globe. The DAAD achieves these goals with over 250 programmes which are largely funded by the Federal Government.

Contact:

German Academic Exchange Service (DAAD)
Kennedyallee 50
53175 Bonn, Germany
www.daad.de/en

Max Planck Society (MPG)

The Max Planck Society for the Advancement of Science is one of Germany's largest, independent, non-profit research organisations. A combined total of 8,800 scientists at 79 Max Planck Institutes conduct basic research in the natural sciences, life sciences, social sciences and humanities.

Contact:

Max Planck Society (MPG)
Dr. Michaela Zimmermann
Hofgartenstrasse 8
80539 Munich, Germany

michaela.zimmermann@gv.mpg.de
www.mpg.de

Alexander von Humboldt Foundation (AvH)

The Alexander von Humboldt Foundation promotes academic cooperation between excellent scientists and scholars from Germany and abroad. Every year the foundation grants more than 800 research fellowships and awards. The alumni network is the foundation's greatest asset. It embraces over 24,000 Humboldtians in more than 130 countries.

German Research Funding Organisations

Fraunhofer-Gesellschaft (FhG)

With an annual research budget of 1.6 billion euros and 17,000 employees, the Fraunhofer-Gesellschaft is one of the world's leading organisations for applied research. Fraunhofer's R&D portfolio covers a wide range of fields, including production technology, photonics, materials science, life science, microelectronics and ICT.

Helmholtz Association

The Helmholtz Association contributes to solving major challenges facing society, science and industry with top scientific achievements in six research areas: energy, earth and environment, health, key technologies, structure of matter, transport and space. With 30,000 employees in 16 research centres and an annual budget of approximately 3 billion euros, the Helmholtz Association is Germany's largest scientific organisation. Its work follows the tradition of the great natural scientist Hermann von Helmholtz (1821–1894).

org@helmholtz.de
www.helmholtz.de/en

Leibniz Association (WGL)

The Leibniz Association is an umbrella organisation of 86 scientific institutes providing an annual budget of more than 1 billion euros. About 6,500 scientists work on an extremely diverse range of subjects, including the humanities and social sciences, economics, spatial and life sciences, mathematics, the natural and engineering sciences and environmental research.

International Bureau of the BMBF (IB)

The International Bureau is commissioned by the Federal Ministry of Education and Research (BMBF) to strengthen the international ties of German universities, research institutes and enterprises. To this end, the IB offers various programmes designed to finance and promote new international contacts and collaboration.

Funding for Joint Research Collaboration (DAAD)

- | | |
|--|---|
|  Target group | • Academics, scientists, graduates, doctoral students, diploma students from Germany and a respective partner country with which an appropriate agreement has been signed |
|  Programme description | • Aims to intensify scientific cooperation within the scope of a concrete, joint research project |
|  Support | • Allowances for travel and subsistence, paid by the respective institution (DAAD funding for German partner only) |
|  Duration | • max. 3 years for the entire project |
|  More information | • www.daad.de/ppp (information in German only), please consult your local DAAD office |

International Helmholtz Research Schools and Graduate Schools

- | | |
|--|--|
|  Target group | • Doctoral students from Germany and abroad |
|  Programme description | • Interdisciplinary postgraduate training in cooperation with universities. Doctoral students acquire key competence beyond their doctoral field for careers in research or industry. The language of instruction is English |
|  Support | • Fellowships or work contracts; funding amount based on qualification level and family status |
|  Duration | • Generally 3 years with possible extension |
|  More information | • Submit applications to the Helmholtz Research Schools or Graduate Schools:
www.helmholtz.de/phd |

Helmholtz Young Investigators Groups

Target group

- Excellent foreign or German junior researchers who would like to participate in a Helmholtz programme, 2 to 6 years after receiving their doctorate (child-rearing periods are taken into account)

Programme description

- Provides the best foreign and domestic junior researchers with excellent working conditions in a research-oriented environment. Researchers are granted independence early on with secure career prospects ('tenure track') based on proven scientific achievements. The leaders of Investigators Groups are expected to work closely with university partners. They have the opportunity to gain teaching experience and acquire the qualifications for a higher academic career

Support

- Young Investigators Groups are awarded a minimum of 250,000 euros a year, which includes:
 - Salary of group leader, generally E 14/15 TVöD or BAT 1b/1a pay scale rate,
 - Salaries of scientific or technical staff (three on average),
 - Expenses for materials, supplies and investments

Duration

- 5 years with an evaluation after 3 to 4 years

More information

- www.helmholtz.de/yig

Feodor Lynen Research Fellowship for postdoctoral researchers (AvH)

- | | |
|--|--|
|  Target group | • Highly qualified scholars and scientists from Germany who completed their doctorates less than four years ago; all disciplines |
|  Programme description | • This fellowship allows researchers to carry out a research project abroad at a scientific host institution. The host must be an academic previously sponsored by the Humboldt Foundation; research stay in all countries |
|  Support | • Research fellowship, travel expenses, reintegration allowance, return fellowship, integration into the worldwide, cross-disciplinary network of the Humboldt Foundation, extensive alumni sponsorship |
|  Duration | • 6 to 24 months; applications possible at any time |
|  More information | • www.humboldt-foundation.de/web/feodor-lynen-fellowship-postdoc.html |

[Students](#)[Graduates/Doctoral Students](#)[PostDocs](#)[Senior Scientists](#)[For Foreigners](#)[For Germans](#)

Research Fellowship (DFG)

- | | |
|--|---|
|  Target group | <ul style="list-style-type: none">• German researchers (or international researchers provided they have completed at least three years of scientific work as a doctoral or postdoctoral researcher in the German research system) of all disciplines who have completed their academic qualifications (doctorate). The fellowship is granted for research stays outside Germany |
|  Programme description | <ul style="list-style-type: none">• To enable researchers at an early stage of their scientific career to carry out a clearly defined research project at a place of their choice abroad or to acquaint themselves with new scientific research methods |
|  Support | <ul style="list-style-type: none">• Basic fellowship plus monthly lump sum payment to cover maintenance and travel costs (Where applicable: Foreign allowance, Travel allowance, Publication costs), benefits for fellowship recipients with children (children's supplement, support for costs associated with parenting – fellowship extension or childcare allowances) |
|  Duration | <ul style="list-style-type: none">• Generally up to 2 years |
|  More information | <ul style="list-style-type: none">• www.dfg.de/en/research_fellowships/ |

Research Stays, Re-invitations (DAAD)

- | | |
|--|--|
|  Target group | • Foreign university teachers, academics, scientists, former holders of DAAD long-term scholarships (more than 6 months) |
|  Programme description | • Allows candidates to carry out a research or study project at a German university or non-university research institute |
|  Support | • Between 1,840 and 1,990 euros per month (depending on academic status); travel allowance (if applicable) |
|  Duration | • 1 to 3 months |
|  More information | • www.funding-guide.de |

Initiation and Intensification of Bilateral Cooperation (DFG)

- | | |
|--|---|
|  Target group | • Scientists and academics in the German scientific community who hold a doctorate |
|  Programme description | • Facilitates international cooperation by allowing eligible German and foreign scientists and academics to plan a partner visit and/or joint workshop with their partners. It supports the early stages of planning, developing and coordinating joint research collaboration between international partners. Funding can be provided for visits to Germany and/or to the partner institute abroad for periods of up to 3 months and joint workshops either in Germany or in the partner country |
|  Support | • Funding covers travel expenses, maintenance expenses, event costs
• Cost categories may be co-financed by a foreign partner organisation if an appropriate agreement exists |
|  Duration | • max. 3 months for research visits; all activities, such as joint workshops, must take place within 12 months |
|  More information | • www.dfg.de/en/bilateral_cooperation/ |

Temporary Position for Principal Investigators (DFG)

- | | |
|--|--|
|  Target group | • Researchers who have completed their academic training and attained a doctorate |
|  Programme description | • Provides researchers (especially early in their career) the opportunity to independently carry out research projects in an ideal research environment in Germany |
|  Support | • Funding is generally based on the BAT IIa / BAT-O IIa or TVÖD / TV-L pay scale. The terms and conditions for research grants apply. Researchers from non-university institutions are required to participate in joint projects with their university partners. Exceptions may be made for young researchers at non-university institutions who have received their doctorates in the preceding 6 years |
|  Duration | • max. 36 months |
|  More information | • www.dfg.de/en/temporary_positions/ |

Bilateral Exchange of Academics and Scientists (DAAD)

- | | |
|--|---|
|  Target group | • Academics and scientists from universities or research institutes working in all subject areas in Germany or in partner countries with which an appropriate agreement has been signed |
|  Programme description | • Supports research or study visit within the scope of the bilateral exchange of academics and scientists |
|  Support | • For foreign academics, the partner institution pays the international travel costs and the DAAD pays a subsistence allowance. For German academics, the DAAD pays a travel allowance and the partner institution pays a subsistence allowance |
|  Duration | • 2 weeks to 3 months |
|  More information | • www.auslands-stipendien.de (website in German only)

Mercator Visiting Professorships (DFG)

- | | |
|--|---|
|  Target group | • Highly qualified foreign researchers who want to complete a research stay in Germany, ideally in a joint cooperative project by the guest and host institution |
|  Programme description | • Enables highly qualified researchers to complete a DFG-funded research stay at a university in Germany. The visit should focus on joint cooperative projects by the guest and host and include some teaching duties in order to provide an international dimension to the research-oriented training of young researchers in the host departments |
|  Support | • Funding usually includes a monthly stipend, travel allowances to and from Germany, travel allowances within Germany and financial support for a research assistant |
|  Duration | • 3 to 12 months |
|  More information | • Applications can be submitted by the German host university at any time and must be submitted or endorsed by the rector/president of the university; www.dfg.de/mercator |

Heisenberg Programme – Fellowship (DFG)

- | | |
|--|--|
|  Target group | • Outstanding researchers who qualify for a professorship by holding a habilitation or equivalent qualification |
|  Programme description | • Provides excellent researchers the opportunity to prepare for a leading position in science and research and to spend time working on an advanced research topic |
|  Support | • Fellowship, travel allowances and, where applicable, allowances for accommodation abroad, publication funding |
|  Duration | • max. 5 years |
|  More information | • www.dfg.de/heisenberg |

[Students](#)[Graduates/Doctoral Students](#)[PostDocs](#)[Senior Scientists](#)[For Foreigners](#)[For Germans](#)

Heisenberg Programme – Professorship (DFG)

- | | |
|--|--|
|  Target group | • Outstanding researchers who qualify for a professorship by holding a habilitation or equivalent qualification |
|  Programme description | • Offers excellent researchers the reliable prospect of a professorship. To be eligible, candidates must find a German university which intends to establish a new professorship and agrees to continue funding the position after DFG funding expires |
|  Support | • Salary based on the W2 (or W3) pay scale level for professors |
|  Duration | • max. 5 years |
|  More information | • www.dfg.de/heisenberg |

[Students](#)[Graduates/Doctoral Students](#)[PostDocs](#)[Senior Scientists](#)[For Foreigners](#)[For Germans](#)

Alexander von Humboldt Professorship (AvH)

- | | |
|--|---|
|  Target group | • Academics in all disciplines from abroad who are internationally recognised as leaders in their field |
|  Programme description | • Enables award winners to carry out long-term and groundbreaking research in Germany and give German universities – also in cooperation with non-university research institutions – the opportunity to establish or upgrade internationally visible research focus areas to enhance their profile. Applications should be submitted by German universities. Non-university research institutions may also submit joint nominations with a German university. Three selections per year |
|  Support | • 5 million euros for academics in experimental disciplines, 3.5 million euros for researchers in theoretical disciplines. The universities agree to integrate the researchers and their team in their strategic planning, offering the researchers long-term prospects in Germany |
|  Duration | • Initial sponsorship: 5 years |
|  More information | • www.humboldt-foundation.de/web/alexander-von-humboldt-professorship.html |

EU-Funding Programmes

The European Union (EU) also provides extensive research funding programmes for scientists and researchers who are already working in Germany or moving to Germany for employment purposes. These include:

The European Research Council (ERC)

The ERC is a funding body that finances investigator-driven frontier research. The ERC Starting Grants support promising researchers who wish to create an independent research team or consolidate one that already exists. The ERC Advanced Grants complement the Starting Grant funding scheme by targeting researchers who have already established themselves as independent research leaders in their own right. ERC Advanced Grants allow exceptional research leaders in any field of science, scholarship and engineering to pursue frontier research of their choice.

More information: <http://erc.europa.eu>, www.nks-erc.de

Marie Curie Actions

The Marie Curie Actions offer numerous opportunities to researchers who wish to participate in a research team in another country. Funding is available for researchers to move both within Europe and internationally. With its aim to enhance networking between researchers, the EU also funds

researchers from non-European countries to receive training in Europe. Three types of 'Individual-Driven Actions' are available to researchers of all ages with at least four years of experience or a doctoral degree.

More information: www.nks-mobilitaet.de
<http://cordis.europa.eu/fp7/people>

For more information on other funding provided by the EU, please visit the website of the EU Bureau of the Federal Ministry of Education and Research (BMBF) at www.eubuero.de (in German only).

EURAXESS Germany funding database

The EURAXESS Germany funding database comprises more than 80 German and EU funding programmes for foreign researchers. Most of the funding programmes presented on EURAXESS Germany are targeted at scientists and scholars at an advanced stage of their careers.

About Research in Germany

The Federal Ministry of Education and Research (BMBF) launched the initiative to "Promote Innovation and Research in Germany" in 2006. Under the brand "Research in Germany – Land of Ideas" various promotional measures and events presenting German innovation and research in key international markets have been organised on behalf of BMBF. The initiative seeks to strengthen and expand R&D collaboration between Germany and international partners.

The following "Research in Germany" publications are now available as downloads at

www.research-in-germany.de/downloads:

-  "FAQ – Preparing your research stay in Germany"
-  "FAQ – How to do a doctorate in Germany"
(release: July 2010)
-  "German Research Institutions at a Glance"
-  "Discover how you can realise your ideas
with Europe's leader in science"
-  "Welcome to Nanotech Germany"
-  "Keeping the Blue Planet Green"

We hope that our brochures will help you prepare for your research stay in Germany. For more information about "Research in Germany", please visit our website
